

MEMBERS WHO REGAINED HEALTH IN ALBUQUERQUE URGE CITY AS SITE OF BROTHERHOOD HOSPITAL

Brotherhood of Railway Trainmen to Establish Million Dollar Sanatorium in Southwest Within Two Years; Albuquerque Making Strong Bid for Institution.

Members of the Brotherhood of Railway Trainmen who have come to Albuquerque for the benefit of their health or that of their families, are enthusiastically boosting the city as the site for the million dollar tuberculosis hospital now to be established by the brotherhood.

The brotherhood is now creating a fund for the erection of the big sanatorium and the building will be started probably within two years. The site for the institution will be selected by a committee which has not yet been named by W. G. Lee, of Cleveland, president of the brotherhood.

As soon as the site for the city is chosen, the brotherhood will start sending the tuberculosis of its membership to that city, paying all expenses until the sanatorium is completed.

Urging that Albuquerque be selected for the institution, Scott Ridenour, a member of the brotherhood from Chaffee, Mo., who came to Albuquerque several years ago in a serious tubercular condition, as was his wife and child, all of whom are now enjoying perfect health, wrote the following letter to the president of the brotherhood:

"310 North Broadway, Albuquerque, N. M., July 18, 1922.

Mr. W. G. Lee, President of the Brotherhood of Railway Trainmen, Cleveland, O.

"Dear Sir and Brother:—Having noted that the convention of the brotherhood has determined to establish a hospital for the suffering from tuberculosis, I feel it my duty to acquaint you with the experiences of myself, wife and child in order that the funds may be spent to the best advantage.

"I was a switchman on the Frisco and stationed at Chaffee, Mo. Was then and am now a member of Cape Rock Lodge 458. I contracted tuberculosis of both lungs. My wife also had tuberculosis and our baby girl had it so that one day was badly affected and one day had it in a running stage.

"In search of a cure, I took my wife and child to Phoenix, Ariz. I found it insufferably hot in the summer. We went to Tucson. The temperature was so hot that we became greatly debilitated. We went to El Paso and found no improvement, and a climate that was too hot.

"We returned to Chaffee, where we remained for three months, the condition of all of us getting worse. Tuberculosis spread to my throat. I could not speak above a whisper, and had to be propped up in bed in order to breathe at night.

"I went to Cleveland to be examined by the brotherhood doctor. He told me that I could not work and that I probably would prolong my life by coming to Albuquerque.

"My wife, child and myself were so weak that it was not possible for us to travel alone, and an attendant was sent with us to a Kansas City. It was thought that we could make our way one night on the train from Kansas City to Albuquerque.

"We reached Albuquerque February 11, and went to a hotel for the night. The next morning the air was clear, dry and warm. I told my wife I could see no reason for hunting for a better winter climate than we were then in. She agreed.

"We rented a house, and within two weeks all of us were feeling better, notwithstanding the fact that I came to the city with a temperature of 103, and my wife's condition was little less acute and that of my child depressed.

"I now weigh less than 125 pounds. I now weigh my normal of about 150. My throat and lungs are entirely cured. For the most of the past five years I have been able to work every day. This year I have bought and sold seventeen carloads of horses and I am now building me a home here to live in the rest of my life. I came here broke—dead broke—but have built three residences and sold them as a kind of side line.

"My wife is well and happy and my little girl is entirely free from her eye and ear trouble.

"I have spent some time in Colorado Springs and Denver, in addition to my experience in Phoenix and Tucson. Not one of these places measures up to Albuquerque's climate in any particular.

"Denver and Colorado Springs are too cold in winter and have too much rainfall and too many fogs. Phoenix and Tucson are hot in the summer, almost beyond human endurance, and lack the necessary elevation for the best results.

"Whether the hospital is located here or not can make no difference to me in a financial way, but as a matter of getting the best for the tubercular sufferers of the brotherhood, I have no doubt that the hospital should be located here and that all sufferers, such as I was, should be sent here by the brotherhood while waiting for the erection of the hospital.

"I personally know bankers, lawyers, doctors, merchants, working people and many of all classes who came here badly afflicted, and are well and happy now. People only recover in a climate that pulls for them.

"Albuquerque has an altitude of nearly 5,000 feet; the annual rainfall is less than eight inches; it has no fogs.

"A beautiful and fertile valley of about 200,000 acres of land, now idle of which is in cultivation, is soon to be reclaimed by the federal government. These lands are well adapted to trucking and fruit growing and are close to good markets. Men and their families could find homes here on small tracts of this land and make comfortable livings without much effort.

"I am calling your attention to the above facts because other towns and cities will be seeking to secure the hospital. When I am convinced that no consideration should prevent its location here.

"Fraternally yours, (Signed) 'SCOTT RIDENOUR'."

FAMOUS BRITISH PUBLISHER IS ILL

Lord Northcliffe.

Lord Northcliffe, owner of several important British papers and recognized as one of the leading publishers of the world, is seriously ill in London. Dispatches from the British capital intimate that his illness is so serious that changes in the management and control of the London Times have been made recently.

and carries her off to a lumber camp in the mountains. The resulting complications furnish much fun and thrills to everyone but Katharine.

"They Like 'Em Rough" is a Harry Beaumont production, written and adapted by Rex Taylor, and photographed by John Arlind.

DUSTIN FARNUM TO BE SEEN IN NEW PICTURE, "STRANGE IDOLS"—PASTIME

Announcement is made by the Pastime theater that the popular Dustin Farnum, now a Fox star, is to open at that house today, in his latest photoplay, "Strange Idols."

The play, written by Jules Furthman, concerns the romance of a wealthy lumberman of the north-west, and a famous dancer in a Broadway cabaret. It is the story of an unfortunate love match, with its heart-breaking and ultimate reunion. The scenic effects include the white light activities of New York and the shadowed depths of the primitive forest in the north-west.

Doris Pawn, a very winsome actress, is Farnum's leading woman, in this picture, which was directed by Bernard Durning. Dustin Farnum's great popularity should insure him a hearty welcome at the Pastime theater.

PEREA ARRESTED ON INFORMATION FROM TORRANCE COUNTY

Luis Perea was arrested yesterday by officials of the sheriff's office on information from Torrance county. A description of Perea was wired yesterday, Sheriff Tony Ortiz. The charge is said to be in connection with a cattle case.

Holstein cows give about 10,000 pounds of milk a year each, or about 15.5 quarts a day.

MEN, WHEN IN CHICAGO

Come and See for Yourself

The Dr. Lorenz Electro Body Battery is the greatest invention for weakness and debility the world has ever known. No drugs, no medicines, no dieting, no unusual demands of any sort, just ease all diseases and this invention will do the work. It sends a stream of vital life into your nerves, organs and blood during the time you are asleep.

For the treatment of rheumatism, weak back, nervousness, stomach, liver and kidney disorders, it is incomparable. Dr. Lorenz's Dry Cell Storage Battery has with vinegar or acids, is 300 per cent easier applied, gives 400 per cent greater service and is sold at a low price without added cost for fancy boxes.

A booklet with full particulars and factory prices by mail FREE sealed.

RINGLING BROS., BARNUM-BAILEY'S SHOWS COMING

First Advance Agents Here Give the Date for the Circus on Saturday, September 23.

The largest circus on the road, the most tremendous combination of real shows—the Ringling Brothers and Barnum and Bailey's combined shows—are coming, and will pitch their tents in Albuquerque on Saturday, September 23rd. F. G. Barker and Nat Goodwin, the first advance agents, who contract bill-board space and space along the highways, arrived in the city yesterday and called at the Journal office. Mr. Barker states that the circus opened for a week at Chicago, Ill., yesterday; expects to give one performance in Phoenix.

Ariz., on the morning of September 23, and thence to Albuquerque for two performances, afternoon and evening, on September 24, and from there to El Paso, Texas. Mr. Barker says it takes over 100 cars to transport the shows; there are 1,800 people connected with the circus; 1,000 horses and 63 elephants, besides wild and trained animals in great abundance. Mr. Barker also stated that it will take at least twenty acres of land for this circus to pitch all of its tents on and then some, before the circus is ready for business.

SCOUT NOTES

Trips.

The meeting was called to order about 8 o'clock Friday night. Olson and Leftwich presiding. After the roll call was taken we all got down to business. Mr. Owens, our new ball coach, organized a baseball team. Some of the scouts talk passed tests. We talked about a hike and decided to go next Friday or Saturday. We then said the good night and the meeting adjourned.

CATTLE MEN GET HEARING BEFORE N. M. TAX BOARD

New Mexico cattle and horse growers will be given another hearing on tax questions by the state tax commission at Santa Fe August 7, according to officials of the state association who received the announcement from the commission yesterday.

Among the tax questions to be brought before the commission will be that of equalizing the cattle assessment values throughout the state. At present the state is divided into a number of tax districts and many of the counties have different valuations on the same type of cattle. It is to attempt to get a uniform valuation for each of the various types of cattle that induced the association to petition the commission for the hearing.

Angkor Wat, one of the mightiest ancient structures ever built, is in the forests of Siam.

FORMER FOOTBALL STAR IS DROWNED IN LAKE

(By The Associated Press.)

Lake George, N. Y., July 22.—William A. Caldwell of Hasbrouck Heights, N. J., a former Cornell football star, was drowned this afternoon in Lake George, near Fort Ticonderoga, when a canoe in which he was paddling overturned.

Mr. Caldwell, who was early morning general editor for the Associated Press, had been visiting the director of a large boys' camp and had gone out on the lake alone in the canoe. It is believed that while removing his outer clothing before swimming in the canoe, Mr. Caldwell's arms became entangled in his shirt and when the canoe capsized he was unable to free himself. The body was recovered early tonight after the canoe had been found floating without any occupant. This was the first intimation anyone at the camp had of the accident.

A national exposition of power and mechanical engineering is to be held in New York city December next.

PACIFIC MUTUAL NEWS

By ALLEN BRUCE

The other day a lady called at our office and inquired: "Do you write insurance for women?" I should say we do! During the last year we have written through our agency alone almost half million insurance on the lives of women in our territory. For those who satisfactorily pass our medical examination the rate for life insurance is no higher than that for men. Recent industrial development has placed a definite and fixed economic value upon the lives of women and where an economic value exists that value should, by all means, be protected. Do we write life insurance on the lives of women? I should say so, why, they are even eligible for the Pacific Mutual Five Way Policy, that perfect combination of complete protection.

The National Garment Company's First Clearance Sale

Starts TOMORROW, MONDAY, JULY 24

THIS is our first clearance sale in Albuquerque. When we opened our doors here four months ago we amazed Albuquerque with the wonderful bargains that crowded our store. The opening of the store was the talk of the town. The buying power of the large syndicate of which we are a member, and our big city methods of retailing brought women's and misses' ready-to-wear and millinery prices and the prices of children's goods down to a level heretofore unknown here.

And now comes our first clearance. Remember, we're only four months old in Albuquerque. Every piece of our stock is new, clean and fresh. Everything in the store is seasonable and salable. It's the merchandise you need right now. The prices are so low that you won't believe them until you inspect the merchandise. We've forgotten profit, precedent—everything—to clear our racks and shelves quickly of all summer goods. Be on hand at the opening. At these prices things will go quickly. Be one of the lucky shoppers to have first pick of this store full of unheard-of bargains.

Entire Stock of Summer Dresses Slashed to \$4.75 \$7.75 \$9.75 \$12.75

MOST Albuquerque shoppers know our splendid stock of smart summer frocks. They will be cleared at prices that would hardly pay for the material in them. Here are fine creations of voile, organdy, dotted swisses and tissue ginghams at \$4.75. Dresses of crepe de chine, organdies, dotted swisses, etc., at \$7.75. Fine taffetas, Georgette crepes, Canton crepes, and Krepe Knits, crepe de chine and crepe meteors, at \$12.75—the very cream of our summer dresses including odds and ends of the finest white crepe de chine and Canton crepe dresses that ever came into town. We will quote no comparative prices on this merchandise. When you see it YOU'LL KNOW what bargains we're offering.

All of Our Wash Waists 95c—\$1.65—\$2.95

The season's finest wash waists. Assortments include all the staples and novelties of the season. Here are fine voiles, hand made waists of organdies, striped voiles and dimities. Self and contrasting collars; the pick of the house—nothing reserved at these three bargain prices.

Our Finest Silk Waists \$2.79—\$4.79—\$9.75

You know how that National Garment Company has led the town this season in silk waists. Here are our finest—not a one reserved—at practically your own prices. Assortments include georgettes, canton crepes, lace novelties and pongees.

Jersey Suits—Serge and Poplin Dresses \$3.98

A small assortment of novelty Jersey suits of navy blue, and serge and poplin dresses in the biggest bargain offer ever put before the people of Albuquerque.

All Our Summer Hats—\$1.95 and \$2.95

Every summer hat in stock at the amazing prices of \$1.95 and \$2.95—never has Albuquerque seen such bargains.

Babies' Kid Shoes—89c

Nice white kid shoes for babies. Have you ever heard of such bargains?

Ladies' Jersey Sport Coats—\$2.95

Fine jersey sport coats—Tuxedo style—in the clearance at \$2.95—all colors.

All \$2.95, \$3.50 and \$3.95 Hose

This is the hose that's the talk of the town. All sizes and colors in the clearance—including lace and glove silk stockings—at \$2.45—or three pairs for \$7.

Children's Underwaists—39c

For boys and girls. 39c or three for \$1—to move them quickly.

All \$1 Silk Hose—79c

Albuquerque was amazed when we sold silk hose the quality of this for \$1—it's in the clearance at 79c.

White Baronette Satin Skirts—\$3.79

Have you ever heard of such a bargain. Genuine silk baronette satin skirts—white—at \$3.79.

Black Sateen Aprons—\$1.59

Ladies' Gingham & Crepe Dresses—\$1.95

Ladies' Wool, Sweaters, all colors—\$1.95

Fine Summer Suits Coats, Skirts and Wraps at \$12.75

Includes all our best light colored novelty skirts—some selling for as high as \$25. Chinchilla coats, herringbone coats and velvet coats—suits of novelty mixtures, newest tweeds, homespuns—some fine 3-piece suits at this price. These include a coat, skirt and pair of knickers.

Children's Coats and Dresses

One-Third Off

Choice of our entire stock of children's coats and dresses. Fine dresses of organdies, voiles and dotted swisses. Coats of summer materials. All for children 2 to 14.

CHILDREN'S \$2.50 WASH DRESSES \$1.49

An entire table of children's gingham and linene wash dresses—all colors—all the popular novelty effects, and in the clearance at \$1.49.

THE GREAT WHITE PLAGUE

Is There a Successful Remedy for This Disease?

Those who are in search of a remedy for tuberculosis, and at the same time doubt all remedies write to The T. F. Glass Inhalant Co., Mason Bldg., Los Angeles, California, for full particulars. By inhalation the lungs are cleared and healed. Even those who are extremely skeptical would do well to get full particulars from Dr. Glass as to his remedy for this disease. The following letter is one of hundreds received from patients who have been benefited by the remedy in all climates. Home treatment.

July 2, 1922.

Dear Dr.:

I hardly know how to begin to express in words just what a wonderful remedy you have for tuberculosis. I have been using your medicine for one year the last of this month. I told my husband this morning that I believe I have raised five gallons of pus since I began using your medicine. Although now I do not raise a spoonful in a week. My pulse ran about 100 or over, and now it runs around 80, and I hardly ever have any temperature now. Of course, I was so near the grave when I began to use your medicine, that I am slow recovering, but I think by fall I will be able to do some work. I do all my own housework and most of my washing and ironing now.

Yours sincerely,

MRS. EDGAR ZION.

5128 West 46th Street,

Denver, Colorado.
